DETAILED ACTION

Election/Restrictions

1. Restriction is required under 35 U.S.C. 121 and 372.

This application contains the following inventions or groups of inventions which are not so linked as to form a single general inventive concept under PCT Rule 13.1.

In accordance with 37 CFR 1.499, applicant is required, in reply to this action, to elect a single invention to which the claims must be restricted.

Group I, claim(s) 1-17, 54-73, drawn to a photodynamic therapy light source comprising a light source, a filter means and a means for controlling the dose to a patient.

Group II, claim(s) 18-35, drawn to a photodynamic therapy light source comprising a light source, a light guide and a camera to provide visual indication of the progress of treatment.

Group III, claim(s) 36-53, drawn to a photodynamic therapy light source comprising a light source, a light guide and a spectrum analyzer for receiving reflected light from the patient to monitor the progress of treatment.

2. The inventions listed as Groups I, II and III do not relate to a single general inventive concept under PCT Rule 13.1 because, under PCT Rule 13.2, they lack the same or corresponding special technical features for the following reasons: In group I, it is considered that a means of controlling the dose of a photodynamic therapy comprises a first "special technical feature". In group II, it is considered that a camera for providing

a visual indication of the progress of a photodynamic therapy comprises a second "special technical feature". In group III, it is considered that a spectrum analyzer to monitor the progress of a photodynamic therapy comprises a third "special technical feature".

3. A telephone call was made to Salvatore Abbruzzese on 1/26/2009 to request an oral election to the above restriction requirement, but did not result in an election being made.

Applicant is advised that the reply to this requirement to be complete must include (i) an election of a species or invention to be examined even though the requirement may be traversed (37 CFR 1.143) and (ii) identification of the claims encompassing the elected invention.

The election of an invention or species may be made with or without traverse. To preserve a right to petition, the election must be made with traverse. If the reply does not distinctly and specifically point out supposed errors in the restriction requirement, the election shall be treated as an election without traverse.
